Application for Candidacy

I, Thelma Sánchez-Villanueva, respectfully address the committee to request to be considered to participate as candidate for the representation of zone 3 of World Psychiatric Association, which includes Mexico and Caribbean.

It would be an honor for me to be able to serve a link between the different countries, regions and the WPA

I greatly appreciate the uniqueness of the practice of psychiatry in each country, but I am also convinced of the benefits of globalization. Throughout my 25 years of professional life, I have been fortunate to attend and participate in multiple international events and today I would like to share, part of what I have experienced, with other colleagues

I would like to bring the member closer to the Organization, to be spokesperson for the offer of activities, making an effort to reach every community, to promote constructive dialogue between different groups, to contribute to the generation of proposals in Health adapted to the needs of each part of the region

Finally, I think it is up to psychiatrists to seek to unify a vision of mental Health, knowing the peculiarities of each Country and the WPA is the ideal forum to do so.

I hope you allow me to participate and I will appreciate your support if you consider it appropriate

Respectfully submitted

Thelma S. Sánchez Villanueva
