

**World Psychiatry**, edited by WPA Past President Prof. Mario Maj, is a high quality journal of international mental health, disseminated to all countries and

distributed to psychiatrists and other mental health professionals worldwide. It is now produced in English, Spanish, Chinese, Russian, French, Arabic, and Turkish languages, and in partial translation in Romanian. The journal is indexed by Medline, Current Contents and the Science Citation Index. Full articles and abstracts from its inception in January 2002 are available online through Medline/Pubmed and the WPA website. With a new impact factor of 12.846, it is the most widespread psychiatric journal worldwide, reaching more than 33,000 psychiatrists. It ranks now no. 5 out of 126 psychiatric journals. The publisher of the journal is now Wiley-Blackwell.

The series *Evidence and Experience in Psychiatry* is a highly successful publishing venture that compares research evidence and clinical experience concerning the diagnosis and management of the most common mental disorders. Each volume covers a specific mental disorder, with a set of systematic reviews of the research evidence, each followed by commentaries produced by psychiatrists from various countries and representing different schools of thought. Ten volumes now exist, several in second or third edition and several translated into various languages including Russian, Spanish, Portuguese, Italian and Turkish. The first volume on Post-traumatic Stress Disorder was published in August 2011. The second book in the series Current Science and Clinical Practice was Obsessive Compulsive Disorder edited by Joseph Zohar and published in August 2012. Clinical Psycho-Oncology: an international perspective edited by Luigi Grassi and Michelle Riba was published in July 2012.

The series *Anthologies of International Psychiatric Texts* (Series Director D. Moussaoui) and *Anthologies Online* includes classical texts produced by psychiatrists of a given country or group of countries published

in English for the first time, accompanied by essays on their authors. Electronic versions are now available through the WPA website and link to Wiley Online Library. A new Anthology of Greek texts was just released at the WPA meeting in Buenos Aires in September 2011, and will hopefully be translated into Spanish. The series *Images of Psychiatry* illustrates the depth and breadth of experience in psychiatry around the world.
