

Document Title: WPA Mental Health Economics Section, Annual Report 2025
Document Type: Report
Author: Dominic Hodgkin
Date Created: March 2, 2026

1. Members list

I can confirm that we:

- have at least 20 members, from different regions
- have held an election for the Scientific Section Committee and officers. The current officers were elected in 2023.
- have updated information on the website on activities and publications of the Section and its members.

2. Action plan

- We have presented a plan of action at the start of the term

3. Information about organized symposia

2026 WCP in September 2026 in Stockholm: We have submitted a symposium for this meeting.

We held workshops on the Economics of Mental Health in Venice in March 2023 and March 2025. The 2025 event was attended by about 70 researchers and clinicians from 17 countries (the program of the workshop is enclosed with Volume 28, Supplement 1, 2025 of The Journal of Mental Health Policy and Economics, which published the selected abstracts).

4. Other activities (link or documents)

Description of activity during 2023-2026:

We continued to edit the Journal of [Mental Health Policy and Economics](#), producing 4 issues each year. As previously, we reviewed papers published in the journal, and every 2 years we issue awards to the best papers (Willard Manning Award in 2025).

In addition, at the request of Dr. Mario Maj (Editor, World Psychiatry), we are preparing a brief report on the Section's activities to appear in that journal. This follows an [earlier report](#), which we published in 2019.
