

Statement of Purpose

Application for Zonal Representative (Zone 16)

World Psychiatric Association

I am writing to express my intention to continue serving as Zonal Representative (Zone 16) of the World Psychiatric Association (WPA), a position I currently hold. During my present term, I have worked to strengthen communication within the zone, promote engagement with WPA initiatives, and enhance regional participation in global psychiatric dialogue. I respectfully seek the opportunity to continue this work and to build upon the foundations that have been established.

Throughout my career, I have remained committed to advancing psychiatric services, academic development, and evidence-based practice across diverse contexts. My professional roles encompass clinical service, research, postgraduate training, and organizational leadership. A central focus of my work has been improving access to mental health care, reducing stigma, and fostering sustainable capacity building, particularly in settings with limited resources.

I also had the privilege of contributing to the organization of the World Congress of Psychiatry held in Bangkok, where my organization served as a host. This experience provided direct engagement with international scientific coordination, large-scale congress governance, and cross-regional collaboration. It deepened my understanding of the WPA's operational dynamics and reinforced my commitment to strengthening the interface between global strategy and regional implementation.

During my current tenure as Zonal Representative, my efforts have included facilitating dialogue among member societies, encouraging participation in WPA educational and scientific activities, and promoting regional visibility within WPA structures. If re-elected, I intend to further consolidate these efforts with an emphasis on continuity, strategic alignment, and measurable impact.

My priorities moving forward include:

- Strengthening structured and regular communication among member societies in the zone.
- Expanding educational and professional development initiatives aligned with WPA strategic goals.
- Enhancing regional representation in WPA committees, scientific sections, and congress activities.
- Promoting collaborative research and innovation tailored to regional needs.
- Supporting partnerships with governmental, academic, and civil society stakeholders to advance sustainable mental health policy.

I remain deeply committed to the principles of inclusivity, scientific integrity, transparency, and accountability. Effective zonal leadership requires continuity, responsiveness, and collaborative governance. I believe that maintaining momentum while introducing thoughtful strategic refinements will best serve both our region and the WPA as a whole.

Thank you for your consideration. It would be a privilege to continue serving the WPA and the member societies of Zone 16.

Sincerely,

Chawanun Charnsil
